

- Customized solutions
- Blanket orders and stock holding
- High and low voltage passive components available
- Automotive grade
- High Frequency available

PASSIVE COMPONENTS

SCAN ME

Ceramic Capacitors

Specifications:

- Doorknob, axial leaded versions
- Up to 50kV and 10nF
- High Frequency, filter, and pulse applications

Pulse / Energy Storage Capacitors

Specifications:

- Up to 150kV standard models
- Up to 1.4mF
- Fully customized solutions
- Oil-filled & dry types
- Metal & plastic housings

Magnetic Cores

Specifications:

- Custom and standard configurations
- Nanocrystalline, amorphous, and ferrite materials
- Toroids, E-, C-, D- shapes
- Mechanical and electrical

Isolation / Pulse Transformers

Specifications:

- Up to 800kV pulse isolation
- up to 1.5MW
- standard constructions and customized

Cables and Assemblies

Specifications:

- Unshielded, shielded, and triaxial
- X-Ray type and multiconductor
- Up to 300kVDC / 100kVAC
- AWG #22 - 0
- Silicone, EPR, PE dielectrics
- Assemblies and customized cables

Non-Inductive Resistors

Specifications:

- Up to 165kV peak voltage
- Up to 163kJ peak energy
- Tubular, Axial-leaded, Slab, and Disk/Washer types
- Custom assemblies
- High resistance precision

Metal-Oxide Varistors

Specifications:

- Bare disc, encapsulated or axial leaded versions
- Up to 3500VDC max. applied voltage
- Max. rated current up to 100kA

SiC Varistors / Selenium Surge Suppressors

Specifications

- Bare Discs up to 300VAC or assemblies
- Assembly max. discharge capacity 540kJ
- Surge suppressors up to
